# In Earlier Days

In former times, when the town butcher or farmer himself dressed and cured the meat for the community, he could not always tell how it would turn out.

His methods were crude; partly to aditional, partly guesswork. His tests were few and inconclusive.

Meat packing of today, as carried on by Swift & Company, has changed all that. It is scientific. Nothing is left to chance; nothing taken for granted,

The most painstaking care and attention are given to every step. Processes are worked out on a large scale with minute exactness. Methods are continually revised and improved. Clean mass is insisted upon. Drastic, incessant inspections are the order of the day.

Switt products are uniform, graded according to quality.

Take bacon, for instance.

Swift & Company set out years ago to make a delicious, savory bacon which should be uniformly excellent.

The result is The Brand Swift's Premium Bacon, always the same, always famously good. Today this bacon, wrapped, sealed and branded, has

circled the world. Swift & Company's system of distribution carries it to places which the "town butcher" or the farmer could not reach.

Swift & Company, U. S. A.

# Camels are made for Men who Think for Themselves

Such folks know real quality-and DEMAND it.

They prefer Camels because Camels give them the smoothest, mellowest smoke they can buy -- because they love the mild, rich flavor of choicest tobaccos, perfectly blended-and because Camels leave NO CIGARETTY AFTERTASTE

Like every man who does his own thinking, you want fine tobacco in your cigarettes. You'll find it

And, mind you, no flashy package just for show. No extra wrappers! No costly trills! These things don't improve the smoke any more than premiums

But QUALITY! Listen: That's CAMELS!
